#### 5.6 Details of student counselling and career guidance

Career Guidance Cell conducted special training programmes during the year 2012-13 for guiding the students on how to handle interviews as well as Group Discussions. Mr. Krishnan M took over the charge of coordinator of Career Guidance and Placement Cell. Several measures were initiated to develop the campus recruitment drive. The same saw the culmination of South Indian Bank agreeing to conduct campus recruitment for their clerical cadre.

Out of more than 100 students applied, short listing was done by South Indian Bank and a final list of 94 students was informed to us for the final Group Discussion and Personal Interview. As it was the first year the group discussion was conducted in the college and the final interview was conducted at the Head Office of South Indian, i.e., Thrissur. Out of the 94 students attended the 6 candidates were selected after the final interview and offer letters were issued to them by the bank.

Prior to the final GD and interview, a team of three faculty members gave specific inputs on GD and interview tips. The team consisted of

Dr. K P Ramachandran Pillai , Associate Professor, Department of Commerce  
 D Ramachandran , Assistant Professor, Dept of English  
 Krishnan M, Assistant Professor, Department of Commerce

Dr. K P Ramachandran Pillai , Associate Professor, Department of Commerce and Krishnan M, Assistant Professor, Department of Commerce gave a detailed session on banking and related areas. As there were many students from non commerce background this was found to be very useful for the students.

- IT aided teaching was implemented and practised extensively in a number of departments. Smart room facilities were enabled in all PG Departments.
- Language laboratory was facilitated in the language departments . This has helped the students to improve their pronunciation and communication skills.
- The Science departments organised visits to laboratories so that students will be familiarised with the practical applications of theoretic al knowledge. Virtual lab facilities and simulated experiments were used in Physics and Chemistry departments. Each student was given an individual password, using which they can access and use the facilities. Library visits were also arranged. This has enhanced independent student participation in the teaching-learning process .
- In connection with National Science Day, science exhibitions, quiz competitions, display of experiments and a virtual display of the scale of the universe were organized.
- Special arrangements were made for the viewing of the rare phenomenon of the transit of Venus on June 6. Students, teachers and staff were given viewing aids to watch this natural phenomenon. These initiatives have supplemented the traditional teaching techniques and motivated the students towards participatory learning.
- Initiative in participatory learning was made through the production of a literary magazine by Literature students. Literary competitions were held by the Literary Club to encourage creativity. Visits to book fairs and literary festivals were also undertaken .
- A visit to the first Kochi Muziris Biennale was also arranged for them, to foster the cultural capital of the students. The Drama Club organised street plays on themes of social and environmental relevance in the campus, as well as in Alleppey town. This has helped to develop a social consciousness among students.
- Additional Skills Acquisition Programme (ASAP) was organised in collaboration with Govt. Of Kerala. It was conducted in the college campus for a period of three weeks as a residential programme.
- A comprehensive programme for greening the campus and promoting environmental consciousness and eco-friendly values and practices was introduced under the programme Haritha Sanatanam and the Bhoomitrasena Club.

7.2 Provide the Action Taken Report (ATR) based on the plan of action decided upon at the beginning of the year

A Virtual Laboratory was set up in association with Amrita Viswavidyalayam . The students of the final year B.Sc. Physics batch were given individual user ids and passwords to access the virtual lab, and simulate the experiments.

Smart rooms were allotted and made ready with facilities like computers, OHPs, projectors, etc

The various clubs in association with teaching departments took the initiative to conduct various activities like Science Day, lab visits, library visits, literary magazine, street plays, etc, in which the students themselves organized the programmes. Special arrangements were made for the viewing of the rare phenomenon of the transit of Venus on June 6. Students, teachers and staff were given viewing aids to watch this natural phenomenon.

Environmental friendly platforms Haritha Sanatanam and Bhoomitrasena Club was started. Trees and Vegetable garden was planted, and the students harvested crops like spinach, banana, country beans etc.

Additional Skills Acquisition Programme (ASAP) was organised in collaboration with Govt. of Kerala. Thirty students of the final year UG and PG courses were selected on the basis of their marks and an interview. The programme was conducted in the college campus for a period of three weeks as a residential programme, with students from this college, as well as from other colleges.

7.4 Contribution to environmental awareness / protection

- The college has a green campus with a great diversity of trees and plants. The staff, students and other stakeholders are committed to preserve the natural beauty of the campus.
- There is a committed effort to create and propagate environmental consciousness in the college community. Awareness programmes and invited lectures are held under the auspices of various departments, clubs and forums.
- All the trees and plants are labelled. NSS, NCC, Eco Club and the bio-science departments take the initiative to plant saplings and maintain the herbal garden. Trees are planted on all internationally celebrated days. As part of the Gandhi Jayanthi celebrations, “Clean the Campus” drive is launched. The entire college- all the staff and students, the various clubs and forums also take part in this activity.
- Haritha Sanatanam was started as a comprehensive programme for greening the campus and promoting environmental values and eco-friendly practices among students. The Bhoomitrasena Club was formed with this view, as a platform for students to actively involve themselves in the practical aspects of cultivation. Trees were planted, vegetable beds were prepared and banana, beans and spinach was planted, nurtured and harvested.
- A street play on the theme of environment protection, “Srishti, Sthithi, Paristhithi”, was produced and enacted by the Drama Club. It was performed both in the College and in Alleppey town, and helped to develop a pro-active culture among students towards environmental issues.

## **BEST PRACTICES: 2012-13**

### **Annexure I: ASAP**

- **Title of the Project :**

“The Additional Skill Acquisition Programme” (ASAP)

- **Goal of the Practice**

Knowledge-based economies of the globalised world demand skilled manpower. Upgrading skill education is the only answer to this demand. ASAP is the joint venture of the Government of Kerala and the Departments of Higher Education and General Education to address the issue of imparting skill education. S D College is a Training Partner of ASAP and trains students every year with the goal of increasing the employability of educated youth. This best practice aims at:

- i. Addressing the crucial issue of educated unemployment

- ii. Grooming the large young workforce
- iii. Helping students to build a professional career by imparting industry related skill courses
- iv. Securing the future by investing in our vital resource--the youth
- v. Enhancing employability of Graduates/Post-graduates
- vi. Developing intra-personal skills
- vii. Providing holistic learning environment
- viii. Preparing young students with skills and the mindset necessary to adapt to the swift changing local and global markets.
- ix. Enriching professional working knowledge of students through skill training that operates across geographic boundaries
- x. Fostering learning through Communicative English, basic IT and practical oriented skill training programmes
- xi. Enabling students to make the most of their potential to realise their aspirations.

### **CONTEXT:**

The changing global scenario demands a shift in perspective regarding the context and quality of knowledge imparted in universities. Skill-based knowledge is the need of the day. The increased use of technology in all aspects of learning has necessitated additional skill-based training as part of education. Lack of skill-based training has resulted in a marked decrease in the employability of the youth in Kerala, thereby causing a deterioration in the general living standards in the state.

To address this challenge, the State Government along with the Department of Higher Education and General Education launched a project named ASAP (Additional Skills Acquisition Programme) in 2012. The aim of the project is to increase skills in various fields including Communicative English, Soft Skills and IT skills. S.D. College, which is a training partner in this programme conducts training programmes for selected graduates equipping them to be self-sufficient and employable.

### **PRACTICE :**

A group of students up to thirty in number were selected, based on their marks and an interview. They were then given a twenty one- day residential training, from 26 April to 16 May, 2013, by three Master Trainers of ASAP, who belong to the Department of English, SD College. The training programme spotlights each student as a prospective Skill Development Executive (SDE) who in turn will train students of the Higher Secondary Level in various schools. The students were given training in the following aspects :

- Communication Skills in English
- Confidence Building
- Team Work
- Public Speaking
- Creative Thinking
- Inter personal and Intra personal Skills /Soft Skills
- IT Skills

The method used is Interactive, where the target group learning is activity-based. The trainees are required to take an online examination called APTIS conducted by the British Council at the end of the training period. The trainees who qualify the exam receive a certificate of International validity.

This programme is conducted with the financial assistance of the Government of Kerala. The funds received are utilised for the food, accommodation and stationary of the trainees and the remuneration for the Master Trainers/Resource Persons. This year thirty trainees were taken into the programme and trained successfully. 80 % of the trainees qualified and are now employed as SDEs in various schools all over Kerala. The programmes were rated with Five Star based on the feedback from students.

## **Annexure 2: HARITHA SANATANAM and BHOOMITHRASENA CLUB**

### **Name of the Programme**

Haritha Sanatanam and Bhoomitrasena Club

### **Goals**

**Haritha Sanatanam** and the **Bhoomitrasena Club** (Friends of the Earth) was formed with the purpose of

- a) inculcating environmental consciousness and eco-friendly practices among students, and
- b) as a practical programme of planting trees, maintaining a vegetable garden and herbal garden

### **The Practice**

**Haritha Sanatanam** was envisaged as a comprehensive programme to inculcate environmental consciousness among the students and staff, and instil the values of nurturing and caring for Mother Earth. Under this programme, the **Bhoomitrasena Club** (Friends of the Earth) was formed and a practical programme of planting and maintaining trees, vegetable and herbal garden was chartered. The Bhoomitrasena Club was formed on 10/11/2012 with a large group of student volunteers and teachers. Ms. Rajasree, Associate Professor of the History Department headed the group, assisted by Ms. Devi S., Assistant Professor of the English Department, and Dr. Binoj Kumar, Dr. Unnikrishna Pillai and Dr. Dileep of the Botany department.

In the first phase of activities, the entire campus was cleared and cleaned by the BMC members, with the help of paid labourers, and the beds for cultivation were prepared. As part of the afforestation programme, seedlings of various plant species supplied by the Social Forestry Department at Alappuzha were acquired. The prepared beds were allotted to the BMC groups for the cultivation of plants. Initially, banana plants, country beans and spinach plants were planted. The students were actively involved in the activities of watering the young plants, weeding the beds and nurturing the plants with organic manure and bio – fertilizers. They continued these activities through the mid summer vacation. It was a proud moment when harvesting time approached. Harvesting was done at the appropriate time, with much celebration and fanfare. All the students shared the harvest and the teachers bought the produce from the BMC members.

This venture was a holistic experience for the students involved in it. It engaged them in constructive activities and developed a sense of responsibility and pride in their work. The students developed close bonds with nature, and learned to value the symbiotic relationship between man and earth.

These activities were supplemented by academic lectures and awareness programmes conducted by the faculty of the college, as well as invited resource persons. The herbal garden already existing in the campus was maintained by the BMC. New saplings of medicinal plants were also planted, including the famed “dashapushpam” or the ten varieties of medicinal herbs used in Ayurvedic medicine. Haritha Sanathanam was envisaged as a long term programme aiming at the greening of the campus and upholding environmental- friendly values and practices.

The future plans of the Bhoomitrasena Club include the production of a home stead garden (kitchen garden), setting up of a vermin compost plant by sourcing the biodegradable waste from the campus, and an extensive afforestation programme in the college by planting perennial tree seedlings.
