Cooperative Store	1
Ramp for Differentially abled	4
Toilet for Differentially abled	3
Rainwater harvesting unit	1
Solar Energy production unit	4.2KW capacity
Aerobic Compost Unit (in association with Alappuzha Municipality)	1
Incinerator	1
Bio-Gas Production Unit (adjacent to Canteen)	1
Women-friendly dining hall and Wash Room	1
Ladies Rest Room	1
Student's Parking	2
CCTV	Throughout the campus
Water Purifiers	18

Sanatana Dharma College, Alappuzha: Fostering Holistic Development

Nestled in the serene backdrops of Alappuzha, Sanatana Dharma College stands as a beacon of holistic education, committed to nurturing not just academic excellence, but also the overall development of its students. With a steadfast focus on providing state-of-the-art infrastructure and fostering a conducive environment for learning, the college prides itself on offering a plethora of facilities tailored to meet the diverse needs and interests of its student community.

Academic Infrastructure:

Equipped with spacious and well-ventilated classrooms, cutting-edge laboratories, and advanced computing facilities, Sanatana Dharma College ensures an enriching environment for the teaching-learning process. Our laboratories are equipped with the latest apparatus and instruments, facilitating hands-on learning experiences that complement theoretical knowledge. With 58 classrooms of which 38 being ICT enabled the College is catering new dimensions of classroom experience for students. The 24 laboratories including the cutting-edge research labs add to advanced learning experience for the students. The language lab, an audio-visual installation used in modern teaching methods to learn the foreign languages, helps

SANATANA DHARMA COLLEGE

ALAPPUZHA

the students in learning language in depth. The College has 12 teaching departments and a Physical Education department of which 9 are Post Graduate and Research Departments, thus forming a higher education hub of the district.

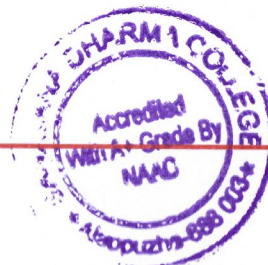

ICT-Enabled Learning:

Recognizing the pivotal role of technology in modern education, the college boasts ICT-enabled facilities such as smart classrooms and a robust Learning Management System (LMS). Thirty-Eight classrooms of the college are ICT enabled and Internet and Wi-Fi facilities are provided in the departments. The college boasts a well-furnished and highly advanced Video Conferencing Hall. Through interactive digital platforms and online resources, students have access to a wealth of educational material that enhances their understanding and engagement with the curriculum.

Cultural and Sports Facilities:

At Sanatana Dharma College, we believe in the holistic development of our students, which extends beyond academics to encompass cultural and sports activities. Our campus houses dedicated spaces for cultural pursuits, including a well-equipped auditorium (two fully air-conditioned auditorium) for hosting events, performances, and seminars. Additionally, we offer a range of sports facilities, both indoor and outdoor, catering to diverse interests. The College has a A-Class cricket ground built in Association with Kerala Cricket Association (KCA) that hosts Ranji Trophy matches, which has five turf wickets. From a fully-equipped ground for cricket, football, and basketball and a multi-gym; and facilities for indoor games such as table tennis, carroms, weight lifting and power lifting, we provide ample opportunities for students to stay active and pursue their passion in sports.

Sanatana Dharma College with its locational advantage of accessibility has adequate physical infrastructure facilities, which includes classrooms, smart classrooms, laboratories, computer lab, auditoriums, seminar halls, video conferencing hall, staff rooms, research centres, playgrounds, canteen, parking area and hostels to supplement the academic activity in the campus. There are also facilities for recreation like Carroms and Table Tennis arranged in the student's common area. The College has a land area of nearly 46 acres, with 14,195 sq. mts. of built-up area.

Dr. A.P.J Abdul Kalam Memorial Common Science Instrumentation Centre: A separate building is made available to host all the facilities under the Fund for Improvement of S&T infrastructure (FIST) project which is an initiative by the Department of Science and Technology, Govt. of India towards providing basic infrastructure, enabling facilities and environment for promoting R&D in new and emerging areas. All the expenses towards the construction of building and other infrastructural facilities were funded by the management of the college. The building has separate space for research equipment, computers and networking facilities and e-learning facilities. The idea of a separate building is to encourage inter-departmental and inter-institute research and collaborations. The fully functional centre is currently a hub of research collaborations.

In essence, Sanatana Dharma College is not merely an educational institution but a nurturing ecosystem where academic excellence, cultural enrichment, and personal growth converge. With a commitment to providing world-class facilities and fostering a supportive learning environment, we empower our students to excel academically, lead purposeful lives, and contribute meaningfully to society.

Divyangjan Friendly Facilities

Creating an inclusive environment for Divyangjan (differently-abled) students is crucial for ensuring equal access to education and opportunities. Sanatana Dharma College has ensured facilities such as ramps, wide doorways and Divyangjan accessible restrooms for a hassle-free curricular life for such students.

Additional Facilities

The college being eco-friendly is backed by the green power from the overhead solar power production unit which generate approx. 4.2KW energy. Sanatana Dharma College also boasts a rainwater harvesting unit for water conservation and re-use. The college has an aerobic compost unit and incinerator for proper waste management. The student's parking facility is particularly helpful for students for keeping their vehicles safe. Water purifiers ensure clean and hygienic water for students. The CCTV throughout the campus highlight the responsibility of the College towards student safety.
